Standard Oil Borrows.
John D.'s Great Lesson
Shooting the Telephone.

By Arthur Brisbane

(WRITTEN JULY 31.)

(Copyright 1919)

The Standard Oil is borrowing money. Only one hundred millions which is as though you borrowed two dollars to be paid back on Monday. But it is interesting, for borrowing is not the habit of the Standard Oil Co. When it wants money it has a simpler method of getting it.

If interested in Standard Oil and its prosperity you will be delighted to learn that the company is doing well. During the last seven years, according to its own statement, it has earned \$454,589,139, has paid out in dividends \$177,008,940, and has piled up more than a billion in reserve cash.

You ask yourself, "how did the share owners have enough self-control to leave so much money in the company instead of taking it out in dividends?" And you answer, "Perhaps they thought it wiser to postpone the dividend distribution until well after the war, when the income tax shall have gone down." If the billion of reserves had been distributed to stockholders while the war was on, the Government would have taken about seven hundred millions of the money in taxes. You can readily understand what good business men the Standard Oil people are.

Do not for a moment suppose that the billion of reserve and the hundreds of millions in profit above referred to represent profits of the entire Standard Oil organization. That concern is no piker. Those figures refer only to the Standard Oil Company of New Jersey, one of many little companies into which the Standard Oil was divided when the Government determined to destroy the trust. That determination was one of the best jokes in the fight between organized capital and disorganized democracy.

You may have heard about the snake chopped into several pieces. Those pieces traveled on in different directions to unite later and go on as healthy as ever. Standard is just such an interesting animal. A fierce government chops it into several small companies. Each soon grows to be as big and fat as the original company, and they all unite healthy, strong and happy at No. 26 Broadway.

One thing you may say for the Standard Oil, it is thorough. When it makes up its mind, if it ever does, to sell out to the people at a fair price the people will get a first-class organization. Traveling through Germany in the old days you would pass first a beer wagon, then a Standard Oil wagon.

And when Rainey was hunting cave tigers in outlandish parts of China he found the inhabitants with no other utensils except empty tin cans belonging to the Standard Oil. This company proves power of organization, proves that the American citizen possesses that power, proves that competition is unnecessary and extravagant. John D. Rockefeller has taught the people of his country a great lesson. Some day they may learn it and use it for themselves.

When Taft suggested reciprocity with Canada, the Canadians said, "No, thank you," and American farmers voted against Taft.

New Republicans in charge of Congress planning, in spite of our love for foreigners, allies, etc., to build up American business and American labor have decided to repeal Canadian reciprocity.

This country is not first in the field of extra protection. Great Britain, living in fear of British workmen and their demands, started some time ago a systematic reversal of England's free trade policy.

An Englishman disgusted with bad telephone service shot his telephone to pieces with a revolver. He has many sympathizers in America, and his act is more than a mere display of bad temper. It takes you back to days when men believed inanimate objects should be held responsible for anything that happened. You have seen a little boy kick the door after bumping his head against it. You have seen a grown man throw a hammer across the room after smashing his thumb. If you had lived some time ago you might have seen a proud ruler ordering the sea to be flogged because it did not behave to suit him. All this survives

Officer and Congressman Are
Investigating Army Brutality

Samuel T. Ansel

Royal C. Johnson, Representative in Congress from South Dakota, is determined to push his inquiry to establish the responsibility for brutal treatment of military prisoners in France. The committee of which he is head has been taking the testimony of returned soldiers. He is following up the lead of Samuel T. Ansel, who only a few months ago was a brigadier general, judge advocate, was reduced to the rank of lieutenant colonel and then resigned.

Royal C. Johnson

RUMANIAN TROOPS
ARE PLUNDERING IN
BUDAPEST SUBURBS

(ASSOCIATED PRESS DISPATCH)
PARIS, Aug. 5.—Telegrams from American officials at Budapest state that Rumanian troops upon entering Budapest yesterday started plundering in the suburbs. Fifteen or twenty civilians were killed by the Rumanians during the day, it is added.

The American reports said the Rumanians were demanding hostages and threatened to kill five hostages for each Rumanian soldier injured in Budapest.

Some members of the new Hungarian ministry, the telegrams state, have been arrested by the Rumanians, who have mounted machine guns in various parts of the city and demobilized the local police. The city is absolutely under military control.

Cavalry in Kobanya.
One regiment of Rumanian cavalry is quartered in Kobanya, a suburb three miles from the center of the city, and overlooking it. Only Rumanian officers are actually inside the city proper.

General Burescu, the Rumanian commander, is the guest of Lieutenant Colonel Romanelli, chief of the Italian mission here. The latter has prevented the occupation of Budapest hitherto by representing to the Rumanians that such action would have a depressing political effect for the new cabinet.

Enter Into Parley.
The Rumanians sent a message last night, that they would occupy the city or bombard, but later entered into a parley with Joseph Haubrich, Hungarian minister of war, and agreed to postpone action. The city is quiet.

BERLIN, Aug. 5.—Troops of the Szegedin government of Hungary

in the things men say to their telephones and automobiles.

There is great sympathy with ancient China because the Allies after all the talk of world justice, abscondingly chopped off and handed to Japan the Chinese territory of Shantung and its thirty-six millions of inhabitants.

Our national sympathy with China is unselfish. If China were left filled with rage and hatred of Japan, with a sort of perpetual Asiatic Alsace-Lorraine bitterness it would not be such a bad thing for western civilization. The most dangerous thing for these western countries would be close friendship between China and Russia, with the Japanese organizing, drilling and financing China's hundreds of millions and using her labor to build ships.

ORGANIZED LABOR DEMANDS
PRIVATE CAPITAL BE RETIRED
FROM RAILROAD OPERATIONMatter Will Be Laid
Before House In-
terstate Commerce
CommissionShopmen Strike
Continues to
Spread and Tie-up
is Anticipated.

(ASSOCIATED PRESS DISPATCH)

WASHINGTON, Aug. 5.—Organized labor was before the nation today, with a demand that private capital be retired from railroad operation and that there be substituted a tripartite control of the railroad properties by the public, the operating management and the employees.

The demand of organized labor, presented in a statement signed by the engineers, firemen, conductors and the American Federation of Labor, was recognized today in Washington as the most far reaching proposal yet placed before the nation during its reconstruction period. Tomorrow it will be formally laid before the house interstate commerce commission by Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers, Frank Morrison, secretary of the American Federation of Labor and Glen E. Plumb, general counsel for the organized railway employees of America.

Marks New Step
The proposal in the words of its author "marks the step by which organized labor passes from the demands for wage increases to the demands that the system of profits in industry be overhauled."

In eliminating private capital from the railroads the labor plan not only proposes but demands that the present private owners be reported with government bonds for "every honest dollar that they have invested," that the public, the operating management and labor share equally in corporations to take over the railroads, and that in all revenues in excess of the guarantee to private capital, the operators and employees share one-half and the public receive the other half "either by increasing the means for service without increasing fixed charges or by reducing the cost of the service, which the machinery when in service can render."

To Investigate Wages
Having termed the proposal of President Wilson and Director General Hines for a congress-created committee to investigate wages and working conditions unsatisfactory and too slow, officials of railway shop crafts through the mailing out of strike ballots prepared to enforce their demands for wage increases.

SPRINGFIELD, O.—City commission votes \$15 increase for all members of the police and fire departments.

have advanced to within 25 miles of Budapest and expected to reach that city last night and Jugo-Slav forces are also advancing upon Budapest, according to a Vienna dispatch received here. It is stated that the Rumanians have captured many communist leaders at the Hungarian capital.

Greeted With Enthusiasm.

The Rumanian official statement which declared that the people of Budapest, "greeted Rumanian forces with enthusiasm" fails to agree with reports to Berlin newspapers, which say that the approach of the Rumanians caused terror in the city. The National Zeitung quotes the Hungarian legation at Vienna to the effect that the Rumanians are plundering Budapest suburbs where they are quartered. Joseph Haubrich, Hungarian minister of war, is reported to have notified the Rumanian commander that he cannot guarantee the maintenance of order in the city if vandalism by the Rumanian soldiers continues.

HEAVY STORM IN
WAYNE COUNTY

WOOSTER, Ohio, Aug. 5.—The heaviest rainstorm of the year flooded all the lowlands in Wayne county and at Perryville tied up traffic on the Chicago-Pittsburg division of the Pennsylvania railroad this morning by washing two feet of sand over the tracks.

Lightning started five fires in the county and much damage was done by the heavy downpour of rain.

SPRINGFIELD, O.—City commission votes \$15 increase for all members of the police and fire departments.

A Bit of Lima's History
Never Before in Print

A vivid story of one of the critical moments in Lima's history told as only Howard L. Burba, former editor of The Times and now noted feature writer, can tell it.

Not a dozen people in Lima know about this thrilling episode when all the city was excited and wondering what would happen next.

This full page story will be published only in

Counter Proposals
of Austria to be
Handed in Soon

PARIS, Aug. 5.—Dr. Karl Renner, the Austrian chancellor and head of Austria's peace delegation, informed General Secretary Dussata of the peace conference today that Austria's counter proposals to the peace terms would be handed over tomorrow within the prescribed time for their presentation.

Dr. Renner, who will leave St. Germain-en-Laye this evening for Vienna, will return August 12.

The supreme council of the peace conference on July 29 extended the original time granted the Austrian plenipotentiaries for considering the peace terms fixing the expiration of the time limit as August 5.

EUROPEAN COAL
COMMITTEE MAY
BE APPOINTED

(ASSOCIATED PRESS DISPATCH)

PARIS, Aug. 5.—Shipping and fuel representatives of France, Belgium and Italy conferred with Herbert Hoover, head of the International Relief Organization here today and decided to urge the supreme council of peace conference to appoint a European coal committee to co-ordinate the distribution of European coal in an effort to avert what threatens to be disaster.

The meeting was held as a result of a warning given by Mr. Hoover, in an address at the recent conference in London of the supreme economic council. He said that Europe's coal production was 35 per cent below normal and that the United States could not offer relief because of the shortage of shipping. During his address Mr. Hoover said:

Coal Men Control All
"The fate of the European civilization now rests in the hands of the coal mines and coal mine owners of Europe to an equal if not to a greater degree than in the hands of the providers of food and supplies during the next year."

At today's meeting Mr. Hoover declined to accept the permanent direction of the proposed European coal commission, stating that he believed the problem to be strictly European and that the situation cannot be relieved materially by the slight help which the United States can give.

According to figures gathered for Mr. Hoover by experts, England's annual production of coal has fallen from 292,000,000 tons in 1913 to 182,000,000 tons, the present production. Germany's decline is slightly greater. Europe, at the present rate, will produce 441,000,000 tons next year, while the amount needed is estimated at 614,369,000 tons.

NAMES BANDHOLTZ
ON COMMISSION

PARIS, Aug. 5.—Brigadier General Harry H. Bandholtz, former chief of the Philippine constabulary, has been appointed by the American delegation to the peace conference as American representative on the inter-allied military commission which will go to Budapest to arrange the terms of an armistice.

General Bandholtz leaves France at once for Budapest, the English and French representatives being either in that city or on their way there.

KILLS HER HUSBAND,
GIVES HERSELF UP

YOUNGSTOWN, O., Aug. 5.—Vivian Dalley Morran, 26, former bareback rider with a circus last night shot and killed her husband William Morran, 30, a former lion tamer when she found him on the street with another woman. After the shooting Mrs. Morran gave herself up to the police. She says the other woman had told her in advance of a proposed meeting with Morran and that she waylaid the pair.

CHILLICOTHE, O.—Charged with having torn off his chevron before his men, Sergeant Jesse H. Saunders, at Camp Sherman, sentenced to serve three months in prison and forfeit two-thirds pay.

PALMER TO
PRESENT HIS
VIEWS TODAYPresident Will De-
vote His Entire
Time to High Cost
of Living QuestionWill Endeavor to
Restore Wheat to a
Free Market With
Guarantee.

(ASSOCIATED PRESS DISPATCH)

WASHINGTON, Aug. 5.—Attorney General Palmer expects to be ready to present a preliminary report to President Wilson today concerning possible steps to be taken by government agencies in the effort to reduce living costs.

Julius H. Barnes, president of the United States Grain Corporation, has been called to the White House for late today and it is understood the president will take up with him a proposal to restore wheat to a free market, with the government making good the difference between the market price and the \$2.25 guarantee to the farmers.

Conferences with republican and democratic senators on the league of nations have definitely been abandoned by the president until the high cost of living are solved, Secretary Tumulty announced.

Devote Entire Time
The president, Mr. Tumulty said, is going to give his whole time to the question of the high cost of living.

Administration officials feel that one way to decrease the cost of living is to increase production and President Wilson is understood to feel that strikers now or threats of strikes will interfere materially with any solution of the problem sought by government agencies.

WASHINGTON, Aug. 5.—Efforts of the government to force down the cost of living overshadowed all else today in Washington with these developments expected:

The increased cost of living was to be taken up at the second meeting of the conferences of the cabinet members and other high officials called by Attorney General Palmer. At this meeting was to be heard recommendations of the special committee consisting of Director General of Railroads Hines, Assistant Secretary of the Treasury Leffingwell, and Chairman Colver of the Federal Trade Commission.

Action Expected
Action by the executive branch of the government to lower prices was understood to be the chief subject to come before the regular Tuesday cabinet meeting.

The senate agricultural committee planned to discuss methods of bringing down prices.

TOLEDO, Aug. 5.—Mayor Schreiber today offered the services of city detectives and policemen in the fight against food profiteers. The offer was made to Ralph Doty, assistant county prosecutor, who has called a special session of the Lucas county grand jury to investigate the cost of living. It is planned to have the grand jury investigation under way in 24 hours.

DAYTON, O., Aug. 5.—With the convening of the Montgomery county grand jury today to investigate food costs, Prosecuting Attorney H. E. Mau announced that the scope of the probe would be widened to include building materials.

Dayton contractors say that building supply men are in a combine to fix the price of supplies, charging that the price for each lumber bill is figured alike for all dealers through the office of a lumbermen's exchange. Many local contractors say they can obtain their supplies cheaper from out-of-town mill men.

BERLIN.—Peidl cabinet of Hungary has retired from office, according to Vienna dispatch.

LOCAL CONCERN TO ERECT NEW HOME IN NEAR FUTURE

The officers of the Lima Truck and Storage Company have announced, they plan sometime in the near future to erect a new four story building on the northwest corner of Wayne and Union streets. The site which was purchased for a consideration of \$15,000 from N. L. Michael, has a frontage of 85 feet on Wayne street and 176 feet on Union street. It is now occupied by a grocery and several small stores.

The present location of the company opposite the B. and O. passenger station will be abandoned when the new building is completed. Plans for the new building have not been fully completed, according to Colonel John Harley, secretary and treasurer of the company.

APPEALS DECISIONS FOR FARM SALE FEE

Clarence Shaffer appealed the decision of Justice Hamilton's court, granting A. E. Wilson \$250 for services rendered in the sale of his farm in Mercer county, to common pleas court, Tuesday.

According to Mr. Wilson the farm of Mr. Shaffer was listed with him for sale on January 13, 1917, with the stipulation that any amount over \$8,500 which he obtained in the sale of it was to become his. In the petition Mr. Wilson alleges that he sold the farm for \$8,750, but that he was not paid the \$250.

ARE INVESTIGATING 'PORCELAIN MINES'

BERLIN, Tuesday, Aug. 5.—The Vossische Zeitung says that an American commission composed of financiers, engineers and officers is in Karlsbad investigating the porcelain earth mines there as security for an American loan to Czechoslovakia. It is also said that the city of Karlsbad will rent its cure baths to an American concern.

NO MORE FREEZING FOR LUGINHUL

Taking no chances on repeating his ride through snowstorm and blizzard two years, when he acted as special body guard for three cars of coal to the Allen County Infirmary from Columbus, County Commissioner, J. L. Luginhul as chairman of the board awarded the contract for 300 tons of coal at \$3.85 a ton for the infirmary, to the Luginhul Fuel company, Tuesday.

Last winter due to the mild weather only 150 tons were used, but in view of the great difficulty which was experienced two years ago in getting coal, the commissioners are taking no chances.

Commissioner Luginhul's ride two years acting as body guard to three cars of coal, came as the result of the inability to get coal and the dire needs of the infirmary, where even the fences were being burned as coal. Coal which has been ordered and shipped never arrived because of being waylaid on the road and it was not until special state protection was afforded Mr. Luginhul, that relief was obtained.

In a sound amplifier invented by a California scientist the fall of a feather makes a noise like a wrestler thrown upon a mat.

PUBLICATION LAUDS A LOCAL MAN FOR HIS EFFECTIVE WORK

The "Chautauqua" a magazine issued by the Chautauqua Association in its July 26 issue gives a splendid boost to Soren G. Sorensen, a Lima man who has made a name for himself in Chautauqua circles, as the manager of the Allen Lyceum. Mr. Sorensen started doing lyceum work when he was a young man in the early twenties, at first speaking himself. Later deciding that the idea of talking an hour each day, and then waiting until the next day to do his part on the program, was not active enough, and he started in business himself.

Today he is manager and sole owner of the Allen Lyceum bureau and its business. The Allen bureau had 30 towns last season, and they expect to book 150 towns this year. The article is quite lengthy, and is accompanied by a picture of Mr. Sorensen.

MRS. MANHARD DIES FROM LONG ILLNESS

Just five months after the death of her husband, A. S. Manhard, Mrs. Natta J. Manhard, died at 3:30 o'clock Tuesday morning at her home, 216 West Market street. Death followed a lingering illness of more than 18 months from a complication of diseases. Mr. Manhard's death occurred on March 6, 1919. Mrs. Manhard was born in Jamestown, Ohio, but had been a Lima resident for many years.

She was a member of Shawnee Rebecca lodge No. 280, the Ladies of the Golden Eagle and was also affiliated with several other societies. Three daughters, Miss Elizabeth Ross, Lima; Mrs. A. R. Manhard, Lima; Mrs. Fletcher Walthall, Fostoria; one son, Charles Ross, of St. Louis, Mo., and four grandchildren are the nearest surviving relatives. Four sisters are also left. They are: Mrs. Mary Bullock, Lima; Mrs. D. F. Appleton, Lima; Mrs. O. T. Prizer, Brookville, Ohio; Mrs. Lee Nicholas, Jamestown and one brother, J. C. Johnson, Urbana.

Funeral services will be held at the

"Looking Backward and Forward."

THE first "Council of the Town of Lima," organized March 29th, 1842, consisted of Mayor H. D. V. Williams, Recorder W. McHenry and the following Trustees: John Alexander, Jr., Samuel Black, J. H. Davidson, T. K. Jacobs and D. D. Tomkins.

The settlement March 7th, 1843 with Treasurer John B. Wamsley shows the expenditure to that date were \$49.16 and there remained in the Town Treasury an unexpended balance of \$4.86.

The Allen County Savings & Loan Company began business January 1st, 1898 and five years later had assets of \$241,000; it now has assets of over two million dollars and is still growing larger and stronger than ever.

To share in the progress of the City and of "The Allen County," you must put something into them; if you would enjoy having money earning five per cent interest start an account today. Savings Building, Corner Market and Elizabeth Streets. Safety, Convenience and Liberal Interest.

late residence on West Market street Thursday afternoon at 2 o'clock, Rev. J. M. Mills to officiate. Interment will be made in Woodlawn cemetery.

CHAUTAUQUA HAS "LINGO" ALL ITS OWN, 'TIS SAID

Have you noticed that almost every business has its own little vocabulary with words and phrases understood by only those "within the circle?" It is true of the chautauqua, as we learned from a friend who recently returned from a season as tent man for the Coit Alber chautauqua, a branch of which is to appear in Lima the latter part of August.

In chautauqua parlance, it doesn't mean what you think when some one says "The Supe's in the kitchen." The idea conveyed is that the superintendent or platform manager is in the canvass addition just back of the stage. The "nine day man" is an advertising agent who reaches town nine days ahead of the program and remains until the opening. Musical comedies, lecturers and other entertainers are spoken of as "talent."

The "crew boys" sleep in the "pup tent." They are on the job 24 hours a day, but find time to do "society." The busiest time is at the end of the week, with the "tear down" immediately followed by the move to the next town and a "set up." "Fall downs" are rare, but sometimes do happen. Cities supporting a full week are known as "sevens," but if the program runs just five days the town is known as a "five."

RENAMED PHYSICIAN.

Dr. F. P. Stafford was reappointed county physician, Tuesday by the commissioners, at a salary of \$1,450 a year.

Course in Life Savings To Be Given at "Y"

Mr. P. R. Pyle, the popular physical director of the local "Y" has returned from his summer vacation. Mr. Pyle, while away, attended the Y. M. C. A. school for physical directors at Lake Geneva, Wis. He comes back to the field refreshed and enthusiastic and anxious to begin at once a program that will mean much to the enjoyment and development to the boys and men of Lima.

While at the summer school Mr. Pyle was a contestant in practically all of the athletic contests. Besides being victor of the whole school in the 100 yard dash, the 220 yard dash and the fancy diving Pyle was a member of two relay teams which were likewise victorious. In this contact with the leading physical directors of the country and the studies of the course that he took he secured many new ideas that will be helpful in his work at the Lima "Y" this season.

The first work that he will under-

SUBURBANITES!

You Owe It To Yourselfes

To be sure that any company you buy of is fully reliable, able to deliver the quality in the goods that you expect them to have, and in every detail entirely honest in their dealings with you—in short, worthy of the confidence you place in them.

The H-R Co. is worthy of your confidence in the fullest terms. You can deal with us with the same feeling that you would have in dealing with a friend that you have known and respected for half a century.

We have served your mother and your grandmother, and with the same valuable service that we have rendered them in their days we ask that we may serve you and yours.

The remarkable success of this company is based on three big ideas—Better Goods, Better Values, Better Service.

See Us Wednesday for Real Bargains

take will be in connection with the swimming pool. Beginning next Monday evening at 7:30 he will hold swimming lessons for men. These lessons will be repeated each Monday and Friday evening at the same hour until six lessons have been given which is ample for the average man to learn to swim. If anyone should fall to learn in six lessons he may take the course over again as the course will be repeated.

On the same evening beginning at 8 o'clock and continuing for three weeks, Monday and Friday evenings, instructions in life-saving will be given. There is no more important instruction can be given than that of saving lives from drowning. The deaths from drowning in and near Lima this season is sad but eloquent testimony that all men should know something about life saving.

The gallery of the swimming pool will be thrown open to male spectators in connection with life saving instruction. All men who are interested in either taking lessons in swimming or in life saving instructions should enroll at once.

Why You Should Vote for the \$100,000 Bond Issue

FOR STREET LIGHTS

Your Opportunity is Here to Get Lights—Real Lights—Not the Kind the Ohio Electric Gives You Some Nights—and Some Nights No Lights.

The city council of Lima, after employing an expert engineer to survey the city's needs, has recommended installation of 600 lights of 400 candle power in the residence district, and boulevard lights in the business section.

For that purpose they are asking YOU, Mr. Voter, to issue \$100,000 in bonds. YOUR vote will be recorded at the polls one week from today.

The Ohio Electric Railway Co. has raised a storm of protest.

Why? Has the Ohio Electric ever showed it cared anything about Lima's welfare? No! The Ohio Electric protests because it sees a rich plum slipping from its grasp. It protests because it sees Lima about to stand on her own feet and demand fair and just service from corporations.

The Ohio Electric Railway company tells you that this proposal is municipal ownership and operation and that municipalities for some reason are unfitted to operate utilities.

You know that is not true. You know you are getting water from a municipal plant cheaper than any private utility company could furnish it.

What is this bond issue you are asked to vote for?

THIS—It provides that the city of Lima shall erect and own the electric street lighting poles on its streets, the wires overhead, and the lighting fixtures on the street corners.

THEN—Having installed its own distributing equipment the city of Lima will ask the Ohio Electric and the Western Ohio, and any other plant selling power, to bid on supplying the current to light the streets—that's what the Ohio Electric calls "municipal ownership."

We call it self-protection. There will be competition. The bidders must give Lima the best price possible to get the contract. With competition open to all Lima can't be held up, as she has been held up many times in the past.

We ask that Lima protect her own pocketbook from the hands of the corporations—that's all.

Tomorrow we will tell you how the Ohio Electric attempted to hold up Lima ten years ago and how the voters of that day defeated the attempt—and saved the city \$85,253.05 in ten years.

The Citizens' Executive Committee

Will One Pair of Glasses Suffice?

It is no longer considered advisable, nor in accord with modern customs, to wear the same eye-glasses for every occasion.

To have your eyes "well dressed" you should wear a different style for street use from those that you wear with so much comfort in the library or office. Very formal affairs require a more distinctive type than those you wear for ordinary use about the home.

We will be pleased to explain the correct mode in glasses to you if you are interested in being up-to-date in eyewear.

Office Vs. Home

Mr. Business Man how much time do you spend in your home during the day? Perhaps three hours. How long are you in your office? Two-thirds of your conscious life. Don't you think that it would be better to spend this two-thirds of your time amid pleasant surroundings and up-to-date office furnishings? Surely modern fixtures and labor saving office devices cannot make you a worse business man, appearances count for much and no one knows this better than you.

Woman's Debt to Democratic Party

WOMAN'S equal interest and partnership in the affairs of government has been recognized by the Democratic party, according to Mrs. Peter Olesen, who represents Minnesota as associate committee woman in the Democratic National Committee. This recognition, she says, "almost persuaded" Minnesota to "go Democratic" in 1916, and will bring the state into the Democratic column in 1920.

Extracts from a recent address by Mrs. Olesen on the subject of the Democratic party's appeal to women are given here:

"Women are naturally progressive. The heart of woman is ever looking for human betterment. Thousands of women have joined the Democratic party, not because they simply wished to further the interests of a political party, but because they wished to further the interests of America and of the humblest citizen of America.

"The women of America appreciate the ideals of the great Jefferson, who sat in Washington's Cabinet and upheld the rights of the common people. The Jefferson who helped to keep alive in the hearts of his fellow Americans the faith in the judgment of the average man and woman. The women of the northwest remember that it was Jefferson who penned the famous 'Grayson ordinance,' which granted one township out of every thirty-six for the education of the children, the future citizens of America.

"The world today is divided into three classes of people; the Bourbons, who do not want to make any progress politically; the Bolsheviks, who want to go too fast, and the great rank and file of men and women who are aiming to be sanely progressive. The Democratic party is the leader of the rank and file of men and women upon whom the welfare of every nation rests. No Bourbons in the Democratic party! No Bolsheviks need apply!"

The Colombian Treaty

THE SOONER the senate ratifies the Colombian treaty—and forgets it—the better for all concerned. It isn't a pleasant thing to discuss for anybody, neither for the United States nor for Colombia. But as our hands are as clean as those of Colombia's, there's no occasion for apology.

Colombia had granted to the French corporation the right to construct a canal across the Isthmus of Panama, which then belonged to Colombia. We bought from the French all the rights and titles which they held. But Colombia refused to make a treaty with the United States allowing us to build the canal. The officers down there were evidently out for as much graft as possible, and the building of the canal came to depend upon the amount of graft that could be secured from us.

Then came a revolution, in which Panama seceded from Colombia, or tried to do so. Not one person out of a hundred in the territory of Panama knew anything about it or cared anything about it. But United States battleships landed marines at the seaports and actually assisted the revolutionists to carry their point, and we immediately recognized Panama as an independent country—and made a treaty with her before the ink was dry upon the ratified treaty. The treaty gave us a strip of territory from coast to coast, though which ran the route for the canal.

It was a high-handed piece of work upon our part. But Colombia had been trying high-handed methods with us. We now propose to give Colombia twenty-five million dollars to heal her wounded pride—or to be distributed among her grafting officials, if they can get hold of it. It is none of our business what becomes of the money, and we can well afford to pay it. The world now has the benefit of the canal, Panama is getting along very well, and Colombia will be satisfied with a goodly sum of money. So let the treaty be ratified, the money paid, and the whole unsavory business be forgotten.

Future U. S. Army

FOR THE current fiscal year the United States war department has made provision for an army of 500,000 men and 22,000 officers, which seems at this time to be sufficient safeguard for American interests the world over. War Secretary Baker has insisted upon half a million men for this branch of national defense during the next twelve months. His figures are based upon a thorough study of Federal needs.

Our air service personnel is rapidly dwindling. The middle of the present month we had about 18,000 enrolled in this branch of service, including about 1,500 officers and comprising our personnel in Europe as well as America.

Plenty of work will be found for the air service for this time on, so the number of men will not be materially reduced from what it is at the present time. We have 9,000 airplanes, 27,000 engines and 1,000 balloons of all types. Experimental work with different types of airplanes and engines continues in America, although Congress permitted a greatly reduced sum for the aeronautical service under what was asked for.

With our national army rapidly coming back to a peace time basis and little if any need for it any place in the world, it is reasonable to assume we have carefully and studiously fortified ourselves to meet any future emergency.

HAPPY THOUGHT: The finish of Shantung is not creating quite as much interest in this section of the state as the finish of the Cincinnati Reds.

Back in the good old days when we use to lull 'em to sleep with "this little pig went to market" we never dreamed that the little pig was going to be worth its weight in gold when it arrived there.

You have probably noticed by this time that the lowering of postage rates also enables 'em to send bills out more frequently now than they did when it cost three cents.

GOOD EVENING—Culture is a funny thing. It makes the same girl who keeps a fellow waiting for two hours while she discards a kimono to go down town a day later in the same kimono and rub elbows with thousands while she watches a circus parade.

The Times' Family Doctor

WHY YOU SHOULD HAVE YOUR FAMILY DOCTOR REMOVE WARTS

By DR. LEONARD KEENE HIRSHBERG

A. B., M. A., M. D. (John Hopkins University)

Warts are not only ugly things, but they are at the same time annoying and sometimes dangerous. If you suffer from the presence of warts on your fingers for example, they are irritating beyond measure and sometimes they even make your "blood run cold" on account of the queerness of feeling they create.

Warts are dangerous things to have because you are almost always inclined to tear them off. Sometimes you even go so far as to bite them out of their places root by root. Thus you are liable to get blood-poisoning or you may develop a scar or bring about a condition much more to be dreaded than the original wart.

Warts sometimes disappear of their own accord, but more often they do not. If the wart happens to be on a part of the human fabric other than the hands or the toes, it is wise not to tamper with it yourself for the outcome may be one that you may eternally regret. You can afford no scars or blood poisoning on any portion of the face, neck and chest. If, therefore, your wart happens to be in any of these regions it is well to seek the aid of the professional for quick and permanent removal.

It is practically true that the presence of many warts indicates a diseased condition of the scarlet fluid. When this is true a physician should be sought to prescribe internal remedies. It is best to consult a doctor as soon as these growths appear, for if the trouble becomes firmly rooted it is more difficult to do away with.

Colorless iodine will sometimes remove warts. To use it the spot must be touched morning and night. This application may after several days, make roughness peel. It will not have any effect if the trouble is deep seated. In this event caustic becomes one of the best agents; it is rubbed evenly over the spot to be removed. It is disfiguring at the time, as it turns the surface black.

Before you apply caustic the protrusion should be trimmed close to the soft skin with a sharp knife that has been antiseptically cleaned, either by dipping in alcohol or boiling water. The wart should not be cut so it will bleed.

Caustic is bought in small sticks in wooden tubes at any drug store. The point is that caustic burns and that it cuts away skin with which it comes in contact.

If it is rubbed over proud flesh the result is a sore spot. Every other day or as soon as the blackness shows the least signs of wearing off, more caustic should be put on. This method is tiresome, but if faithfully followed very often cures.

A mistake made by inexperienced persons is to stop its use as soon as

Short Stories of the Buckeye State

CONTRACT TO BUILD A CITY.

One hundred and thirty-one years ago this month a contract was entered into by three gentlemen, probably at Lexington, Ky., that led to the establishment of what is now the city of Cincinnati. The document bears the date of August 25, 1788.

Matthews Denman, of Essex county, N. J., had in January of that year secured a tract of land in the Symmes purchase on the north side of the Ohio river, opposite the mouth of the Licking, visited the place in the following summer and conceived the idea of locating a town there. But feeling inexperienced in western matters he conferred with Robert Patterson of Maysville and John Wilson at Lexington, Ky., regarding his project and proposed that they become equal partners in the venture.

They accepted the proposition on the terms offered and the contract was signed. It set forth that Denman had secured a tract of land at the designated place of which he transferred the full undivided two-thirds part to his partners, they to pay him in consideration, upon the presentation of indisputable evidence that he had a perfect title to the land, the sum of 20 pounds, Virginia money. So the 640 acres of land that constituted the site of the

original city, and is now the most valuable business property in Cincinnati, sold at this time for \$150, though probably the contribution of their judgment and advice in the carrying out of the project in hand was no doubt looked upon as part consideration to Denman.

It was stipulated in the contract that the principal object was the establishment of a town on the tract and each of the parties to it bound himself in an undertaking of \$1,000 to carry out his part and share in the enterprise. The first party of settlers for the new town arrived by boat some time late in December—the exact date not being known now—but at Cincinnati the date generally accepted as that of the landing is December 28, 1788.

CARTER & CARROLL

STORM WRECKS THE PHONES AT OTTAWA

OTTAWA, Aug. 5.—A severe electric storm did much damage here early last evening. The telephone and telegraph wires were out of commission. Fire, caused by lightning, wrecked the entire inside of the Putnam Telephone office in the Kinder block on East Main street. No one hurt. Several trees were splintered into kindling. Reports that could not be verified, came that several large barns south of town were struck. Much rain fell in a short space of time.

Mr. John Bland, of Washington, D. C., and Arline, daughter of Dr. and Mrs. A. J. Arnold, Ottawa, were married in St. Peter and Paul's church Tuesday morning, August 5. The attendants were Oscar Nienburg, Glandorf and Beatrice Ossage, Toledo. They will reside in Washington, where the groom is employed in the Treasury department.

The funeral of Mrs. Theresia Nuermann, 71, wife of August Nuermann, New Cleveland, will be held in that city Wednesday morning. She is survived by a husband and several grown children.

The funeral of Mrs. John Karhoff, 34, Glandorf, was held in that city. She is survived by a husband and five children.

The grand jury will be in session here Tuesday, August 5, to probe profiteering, and to do the regular work, as well. The prosecuting attorney will make no statement till the grand jury makes its report in open court. Witnesses have been called in the investigation of profiteering.

Kiwanis Club Has First Session At Elks Tuesday

The Elks' Home banquet room resounded with Kiwanis yells and songs on the occasion of the initial how-wow and luncheon of the new Lima Kiwanis club at noon today. Seventy members and guests sat down at the tables and participated in an hour of good cheer such as is seldom witnessed.

The president of the club, Appellate Judge Kent W. Hughes, reached the Elks' building just in time to preside, he having, with Attorney Francis W. Durbin and their families, driven by auto from Cleveland, and part of the way through a blinding windstorm which threatened to overturn their vehicle.

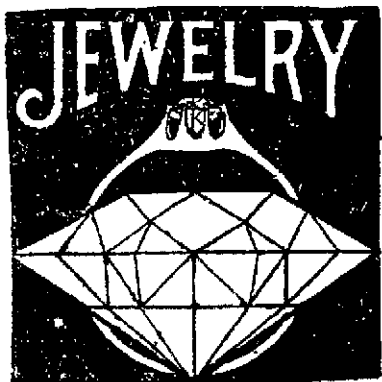

Speeches were made by Arthur Nash, of the Cincinnati Kiwanis club, and J. R. Finn and E. R. Wynne, of the Toledo Kiwanis club. Field Representative Hal P. Denton read telegrams and letters from the international officers and from Kiwanis club in various parts of the United States, each conveying congratulations and extending a welcome to the Lima Kiwanis club.

The Kiwanis club will get down to a regular program at its next meeting. It is expected that the quarter will be completed within the next 10 days.

NORWALK, O. — Colonel John Quincy Adams, noted Indian fighter and former instructor at Culver Military academy, Civil war veteran, died here Monday.

SURE SELLS GOOD

One grocer sold ten cases of Nucoa Butter last week and said he expects to sell fifteen this week because it is the best Butter he ever sold and everybody likes it. Ask your Grocer for Nucoa Butterine.

DIAMONDS OF QUALITY

Minute differences in color, cutting, brilliancy and clearness affect the value of the diamond to such a degree that few persons can accurately determine diamond values.

We have been selling diamonds in this community for years. We know diamonds are here permanently to back up every sale we make. You will find here a very comprehensive collection of stones—at prices surprisingly moderate.

Society News

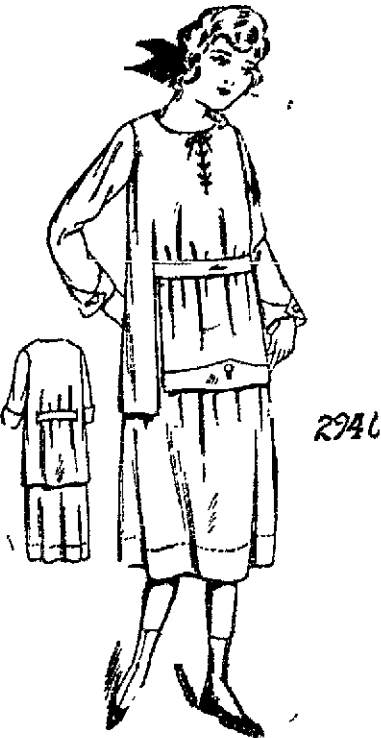

BY MARGARET GRAHAM

ATTRACTIVE BRIDGE-TEA.
A very attractive affair given for a charming house-guest by a delightful hostess, was that of Monday afternoon, when Miss Margaret Gregg, of West North street, entertained with bridge, complimenting Miss Elizabeth Turley, a schoolmate from Richmond, Ky. The large rooms of the Gregg home were thrown open to the guests, and tables for play were laid in the drawing and music rooms. Following the games, Mrs. Joe H. Davidson, was awarded a dainty gift when she held high score, and Miss Mary Katherine Roby was presented with the prize commonly known as the "Booby."

A delicious tea was served at 5:00 o'clock by the hostess, assisted by Miss Annette Roby. The pretty floral decorations with nasturtiums as the basis, were of the daintiest. A cleverly arranged nosegay of the same flower was placed on each plate.

Those who enjoyed Miss Gregg's hospitality were: Misses Annette and Mary Katherine Roby, Martha Roby, Florence Price, Fawn Parent, Mary Parmenter, Nellie Bigley, Elsie Weikelbaum, Helen Basinger, Marfan Dunn, Martha Andrews, Margaret Graham, Helen Hunter, Josephine Sherwood, Magdalene Stolzenbach, Dorothy Collins, Alice Bell, Violet Bradley, Hazel Wright and her house-guest Miss Hunter of Norristown, Pa., Marlan Sullivan, Helen Pence, Louise Folser, Eloise Cunningham, Hilda Leet, Gertrude Boose, Eleanor Isham and Mrs. Chester Cable, Mrs. Walter Renz, Mrs. Mark Kolter, Mrs. Roy B. Gregg, Mrs. Joe H. Davidson and Mrs. T. R. Schoonover.

BRIDGE-TEA.

Mrs. George L. Nowson, of Franklin street, entertained with three tables of bridge at her home Tuesday afternoon as a pretty compliment to Miss Anna Baxter, house-guest of Mrs. F. T. Cuthbert, her sister.

WEST END BRIDGE CLUB.

Mrs. George Vicary, of West Market street, is entertaining the members of the West End Bridge club Friday. Luncheon will be served at 1:00 o'clock at the Country club.

Miss Hazel Wright and Miss Gertrude Hunter, of Norristown, Pa., accompanied by Miss Helen Bicknell, of Findlay, left Monday for Chicago, where they will spend the next several weeks.

NO MORE MEETINGS.

During the months of August and September there will be no meetings of the Child Conservation League, and the next meeting will be held October 5, although the place has as yet not been named.

Miss Katherine Walsh, of Carter & Carroll's ready-to-wear department, has gone to New York, where she will spend the next two weeks buying fall and winter goods.

CLUB CALENDAR

TONIGHT
Young People's Missionary society, Bethany Lutheran church, Mrs. Hettie Stupp.
Admiring Party, Miss Bertha Bascombe, 8:30.

WEDNESDAY

Bridge-Tea, Mrs. Rhonda Zellitz Croy, for Mrs. Albert Solland, guest at the E. N. Zellitz home.

Luncheon for Miss Elizabeth Turley, Misses Mary Katherine, Martha and Annette Roby.
W. F. M. S. Trinity church, Mr. and Mrs. D. J. Cable, "Springside Farm," afternoon and evening.

Ladies Aid society, Zion Lutheran church, basement, afternoon.

Ladies Aid society, Bethany Lutheran church, 2 o'clock.

PRETTY TEA

Mrs. Clem Baxter, of West Market street, invited 35 guests in to have tea with her house guests, her cousins, Mrs. W. A. Holl, of Canton, and Mrs. A. D. Sipp, of Massillon, who for several years past have been annual summer visitors at the Baxter home, and their acquaintances here are great in number. It was a lavender tea, that is the long table, arranged in the dining room was a perfect picture of loveliness, with its deep purple gladioli, tied with lighter shades of purple, while individual cakes were iced with lavender and there were lavender mints. A prettier combination or a more effective arrangement can not be imagined.

Mrs. Baxter presided in her usual graceful manner and the delightful informality of the whole affair was something to be reckoned with.

BRIDGE-TEA

Mrs. Rhonda Zellitz Croy, is entertaining on Wednesday with a bridge tea for the pleasure of Mrs. Albert Solland, who is a guest at the E. N. Zellitz home, on Shawnee Road.

Marsh Thompson, of West Market street, has gone to Cincinnati, where he will join Mrs. Thompson and they will return the latter part of the week. Mrs. Thompson has been visiting there the past week.

Mrs. George Vale, of Cleveland, is visiting her parents, Mr. and Mrs. W. H. Hay, of West Spring street.

Miss Elizabeth Woodward, of Columbus, arrived Tuesday, to be the guest of Miss Violet Bradley, of West North street, for a week.

Mr. and Mrs. J. A. Carpenter, and daughter, Mr. and Mrs. Frank Thomas and Mrs. Edman, have returned from a ten days motor trip to Cleveland and Cedar Point, where they have spent the time most pleasantly.

CHILD'S PARTY.

Little Miss Mary Leete, daughter of Mr. and Mrs. Renick Leete, of Lincoln avenue, entertained a merry little party of friends for the pleasure of two youthful out-of-town visitors, Louise and Mary Elene Davis, Clifton, Cincinnati, who are visiting at the home of their grandmother, Mrs. E. F. Davis, of North West street. Francis Meade and Garnet Howell entertained the children with games and story telling, during the afternoon, and at the tea hour were lead to a prettily arranged table, in the garden, laden with all the things so dear to the hearts of childhood, that is so far as candies, ices and cakes were concerned. Three large bowls of garden flowers were placed on the table further beautifying the scene.

Little Miss Leete's guests were, Marjory Kirk, Catherine and Margaret Glover, Marlan Howe, Nancy McLaughlin, Katherine Holland, Mona Vitour, Jean Shepherd, Elizabeth Watkins, Mabel Cowan, Jane Taylor, Martha Jackson, Katherine Peters and Josephine Wilson.

TEA AND LUNCHEON.

Miss Florence Price, of North Metcalf street, entertained a circle of friends, Tuesday afternoon with tea at her home, in honor of Miss Elizabeth Turley, of Richmond, Kentucky, the house guests of Miss Margaret Gregg, of West North street.

On Wednesday, Miss Turley will be honor guest at an informal luncheon when the Misses Mary Katherine, Martha and Annette Roby, of West Market street will be hostesses.

The following have returned from Russell's Point, where they spent the week-end at the cottage, "Evelyn": Miss Dulcie Rice, Miss Aileen Maconey, Miss Mary Connelly and Miss Winifred Murray.

Mrs. Wm. Mahon of Toledo, has returned to her home after spending the past week with her parents, Mr. and Mrs. M. L. Brown, of East McKibben street.

After spending the past four days at the cottage "Cumberland," at Russell's Point, the following boys returned to this city Monday night: Bob Beckam, Bob Bemus, Fred Current, Gene Neely, Lawrence Keating, Foster Fields, Earl Phillips, and Horbert McGinnis.

Mr. and Mrs. John Callahan, of West Haller street Terrace have returned from Niagara Falls and Washington, where they spent the past two weeks.

Miss Marcia Leeds, of West High street, and Miss Margaret Schultze, of West North street, have returned from Russell's Point where they spent the week-end as the guests of friends.

Miss Nell Gagen, of North Main street, has returned from Chicago, where she visited with her sister and husband, Mr. and Mrs. Thomas Cunningham.

Miss Gertrude Pollard, of Springfield, is a guest at the home of Miss Bertha Edman, of West Elm street.

III.—CHAINS THAT BIND.

Our honeymoon was quite conventional and necessarily brief, for the entrance of the United States into the war was imminent and business interests required Paul's attention at home. But I was very happy during those brief weeks in the continual excitement of the diversions Paul planned for me and my trousseaux gowns aroused quite as much admiration around the hotels as my abnormal vanity could wish.

Sometimes when I had made an elaborate toilet for dinner I would stand before the pier glass and caress with my eyes the curves of my body, the sheen of my hair and the tints of my flesh. I reveled in my charm, not for my husband, but for a sort of composite husband out of whom looked the eyes of all the men in the world. It is the nearest that a good woman approaches to being immoral when she looks at her reflection in a decollete dinner gown.

It seemed futile to have dressed so carefully for the admiration of one man, or even the limited clientele of the hotel dining room. I wanted all the world to see me. Some master painting secreted in a safe deposit vault, or a flower blooming in a cellar, must feel as I did. I had never experienced that feverish desire for personal exploitation before. One evening the key was given to me.

"You look ravishing tonight," Paul had said. "It's a great flipp to a fellow's vanity to walk into a restaurant with you. You knock them all cold, you know, but I wish some of them would keep their eyes

thought you were imperious. This Tindall chap looks like a fine fellow, but I thought nothing sort of a millionaire or a movie star would get you, little heartbreaker. Is love such a big thing, after all?"

I said something then I didn't mean, though I've said it hundreds of times since.

I said: "I don't love my husband. I married to be amused."

Tomorrow — I Question Marriage.

Do You Want Perfect, Pearly Teeth

If you do the saliva must be alkaline. Nature intended it so in order to help digest your food. Many people unknowingly suffer with acid mouth, decay sets in, the enamel of the teeth is attacked, the gums recede, frequently bleed and the teeth become yellow. To counteract these disagreeable conditions, use

Kelner's Specially Prepared Chlorate of Potash Tooth Paste

in time and you will have perfect pearly teeth, hard gums, the enamel will be protected and the natural alkaline condition of the mouth will be restored. Price of large sized tube, 35c. For sale only at the

LEMON JUICE TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled.

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quart of the best freckle, sunburn and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

A Chance to Live

(By Zoe Beckley)

THE TETHER OF CIRCUMSTANCE.

Annie walked slowly home. The girl Nena had thrown her mind into chaos. She began to realize the "snob ideas" she had fallen into by reason of her success and happiness. She began to examine her "success" more closely. Success? Success? She had twelve dollars a week, and might get fourteen in a month or two. Fourteen would just keep her family going, with a tiny margin for a rainy day—in case she or Aunt Maggie got sick or something.

If she married Bernie right off, and went to housekeeping on his twenty-dollar wage, what would happen at home? Annie had lost sight of these ugly facts in her golden glow of love.

Janie was only eleven. It would be five years before she would be able to take Annie's place as breadwinner for the family. Unless, unless she started as Annie did, at bare fourteen, in the basement of a store, and then went into the factory.

Annie remembered and renewed her self-imposed oath that never, never should Janie go into a factory. Better love deferred indefinitely. Better even break her engagement with Bernie and leave him free to find some girl who could bring him immediate happiness! At this thought tears of despair gushed to her eyes as she climbed the grimy stairs of her tenement. She couldn't give Bernie up. She must find some other way out.

They had not yet discussed the date of their wedding. The most definite stamp which had been placed upon their relation was Bernie's insistence on a ring. And this had so glorified the situation that Annie's thoughts had not extended further for the time.

In due course the due emblem arrived—a tiny diamond earring which Bernie had pledged himself to payments for many future months. When he had slipped it on her finger with "a kiss for her, a kiss for

Serving Suggestions That Solve Housewives' Problems

IN the spirit of co-operation these suggestions are offered with the sure knowledge that they will assist in giving the finishing touch to social occasions of many kinds. You'll want to cut them out and save them, just as many other housewives are doing.

You'll Like to Serve "Vanilla Wafers"

These splendid delicate brown wafers have long been a favorite with everyone. They have a good rich flavor that goes well with refreshments. Try Vanilla Wafers with this recipe: Break wafers in small pieces. Place in sherbet glasses and cover with whipped cream. Add cherries, strawberries, pineapple or any fruit desired.

You'll Want to Try These Too:

Anthony	Glaze Honey	Marshmallow Walnut Bon Bons
Delico Sugar Wafers	Oat Cakes	Cocoanut Taffy Bar
Grandma's Best	Graham Wafers	Animal Crackers
Amsterdam Cookies	Ginger Lassies	White Mountain
Sugar Jumbles	Ginger Snaps

Social Notes

Miss Adeline Bland has left for a month's vacation in New York City. Enroute she is spending several days with relatives in Cleveland, and then will take a boat to New York City.

Mrs. F. M. Bland and three children have returned to their home in Cleveland after a five week's visit at the Bland home, on West Wayne street.

Miss Helen Bland, of Springfield, Ill., is spending several weeks at the guest of her grandmother and aunts, at the Bland home, on West Wayne street.

Mr. and Mrs. E. L. Andrews, of West High street, have returned from a very pleasant stay of several weeks at Cedar Point. From Cedar Point they spent some time on the lakes going to Cleveland, and Put-in-Bay.

Miss Helen Kershner, who has been visiting at the B. A. Gramm home on South Cole street, returned to her home Tuesday morning. Mr. Gramm and Miss Katherine, motored to Bowling Green with her.

Miss Beatrice Sherwood, of South Cole street, is visiting friends in Columbus, and will spend some time at Buckeye Lake, before returning to her home, here. Miss Sherwood leaves this fall for Margaret Morrison School at Pittsburgh.

Word was received on Monday evening from Frank Callahan with Company G., stating that he would arrive in New York from overseas on Tuesday. Lieutenant Callahan has been overseas for the past two years.

Miss Marian Sullivan, of south Jameson avenue, will return the last of the week from Marion, where she has been visiting her cousin, Mr. and Mrs. Carl La Marche.

Mr. and Mrs. Joseph Nagelsen and children of West McKibben street, have returned from Piqua, where they spent the week-end with Mr. Nagelsen's mother, Mrs. J. Nagelsen.

John R. Carnes, of State street, spent a few days here, and then returned to his summer home in Oden, Michigan, Monday. Mr. and Mrs. Carnes and daughter, Kathryn Ann, and Mrs. J. J. Wyre, will return to Lima, August 25th.

Miss Charlotte Colson, of Bellefontaine avenue, has gone to Detroit Mich., where she will spend the coming week with friends and relatives.

Mrs. John James, of West North street, is at home after visiting for two weeks with friends and relatives in Cleveland.

Mr. and Mrs. Roy B. Gregg, of South Cole street, have had as their guests Mrs. Gregg's parents, Mr. and Mrs. A. M. West, of Wilmington, Ohio, who returned to their home Monday.

How Fine it is to Save on Dresses like These

A sale of fine Dresses like these is bound to make its appeal—women attend it because they are unable to stay away.

As a Veteran Newspaper Writer Once Wrote

When a store has something really wonderful to offer, there seems to be some invisible message that goes out to the public. They seem to feel the sale.

This is indeed true. Women feel the bigness of The Big Store's Dress Sale and they realize the good judgment of attending it.

If you have not yet come in to this wonderful sale—please do so at once, before our selection becomes depleted.

CHARMING AND VIVACIOUS

Constance Talmadge

In a Laughing, Rollicking Comedy Drama

"Happiness a la Mode"

In Which Miss Talmadge Wears Many Beautiful Negligees

will be fully sustained at the Orpheum tomorrow, when this famous comedy will be seen. Matinee and night. The play this season is said to be better than ever—funny situations, bright dialogues, attractive musical numbers, artistically blended, making it the greatest of matinee attractions for the children and equally entertaining for the older class.

It's brighter and better than ever. There's the Bad Boy and his chum, the Bad Boy's girl, his Ma and Pa, and the old grocer Shultz, upon whom are played many new and up-to-date tricks. Attractive specialties are introduced during the action of the comedy, greatly adding to the enjoyment of each performance.

Fifty children admitted free at the matinee tomorrow. Order seats early as indications point to big houses both matinee and night.

THE STRAND

At the Strand today and tomorrow the man who at one time was feared throughout the West, will be the star attraction in the Western production "The Frame Up." At one time one half of the law and order Leagues in California were engaged in rounding up this leader of outlaws who was so much feared. But after his capture and serving a time in the penitentiary he realized that the "straight and narrow" was the best and he devoted the rest of his time on lecture tours throughout the country explaining to young men that evading the law didn't pay. In addition to this thriller will be seen another two reeler as well as a couple comedies.

AT THE ROYAL

An unusual cast is selected for the World production playing at the Royal today and tomorrow. "The Scar" Kitty Gordon has a role of remarkable intensity that Cora an adventuress who is as cold and calculating as she is beautiful. Irving Cummings, Eric Mayne and Frank Farington from an excellent support in this great production. The Goldwyn Educational as well as another of the Christie comedies entitled "Oh Susie Be Careful" make this a very interesting program.

AT DREAMLAND

Those who are desirous of seeing Western feature productions will have their wishes gratified in the five reel Pathe feature production "The Border Raiders." The stars in this are George Larkin, and Betty Compton, the dainty but daring little star of serial fame.

PRaise FOR PARIS

PARIS, Aug. 5.—Premier Clemenceau has cited the city of Paris in army orders as follows:

"The city of Paris, a capital magnificently worthy of France animated by patriotic faith which never faltered here with firm and smiling courage frequent bombardments by aircraft and long range guns from 1911 to 1918 and has added deathless chapters to her secular glory."

MARION PLANT BUILDS

MARION—Work started here on a new \$40,000 addition to the plant of the American Malleable Castings Co. The building will be 300 by 60 feet.

BLUEM'S

Lovers of Pretty Fall Frocks Should Wend Their Way to Bluem's For Satisfaction

Those crummy days of last week and those that we will feel frequently from now on sound a warning that is not to be discounted. Fall is coming to visit us with all of her glorious colors and peppy spirit! It makes us happy just to think of the fun we'll have and how good we'll feel.

Hundreds of fine dark garments have assembled in our great Ready-to-Wear salon to give zest and eloquent expression to the occasion. A PLEASANT NOTE OF ECONOMY—SERGES \$25.

Our buyers outdid all past efforts in securing a line of dresses that could be sold at the popular price of \$25.00; and incidentally we marked them closer than usual to help things along. It is a fine selection—large in size and handsome in make-up. Come in serge and poplin in navy, black, brown and burgundy. A feature value!

GLORIOUS, SMILING AFFAIRS AT OTHER PRICES

With bright new Fall eyes, these lovely frocks look at first comers with an appealing expression. "I'm for you," they seem to say. Some of them are in tricotine while the remainder are serge. On some there is much embroidering often in colors of bright hue the sometimes quite sombre in keeping with the mother material. Braid and buttons are also used for embellishment. Come in lovely new Fall shades. Very economically priced.

THIRD FLOOR

Props Are Out From Under The Old Prices

A LAND SLIDE OF HOUSE AND PORCH DRESSES

One reads much in histories about landslides and glaciers that start high and come down, taking everything with them. Virtually the same thing has happened in the Basement with Porch and House Dresses.

Although the prices have gone up tremendously on this sort of merchandise we are willing to make this great price concession to reduce our stock.

Most all of these models are of the celebrated Electric Brand and Marguerite Preshrunk dresses. Sizes 18 to 42.

Former \$2.25 to \$2.75 percale dresses now—\$1.89.

Former \$3.25 to \$4.00 gingham and percale dresses now—\$2.75.

Former \$4.50 to \$5.90 gingham and tissue dresses now—\$4.25.

BASEMENT

Creme de Chine and Georgette Waists Come Slipping Down to \$4.75 Because Soiled.

But the slight soiling is not going to make them any less attractive because women realize how little effort it takes to restore their original handsomeness.

Even at the original pricings that have been on them—\$5.95 and \$6.95—they were great values and could not be duplicated for near that were they bought today.

Are in flesh and white mostly. Many of them are enhanced with pretty lace as trimming while some have tucks and others embroidering. They are plain tailored.

There are many of them, still, when the lowness of the pricing is considered it may be said that there are few in the face of the demand to come!

THIRD FLOOR

Voiles 48c

MEANS A SAVING FROM
21c TO 77c YD.

"The demand for voiles is holding up well, isn't it, Mr.——," said a woman on the second floor the other day, to our buyer.

"Well, it is not strange when you know the reasons," he replied, "first they're the prettiest we've ever had and just look what a little price is on them. No wonder, is there?"

Colored voiles in exquisite patterns. Come in stripes, plaids and figures. Were 69c to \$1.25 per yard.

SECOND FLOOR

"Feel Just as Cool in My Regrattas as Bob Does in His Athletics"

Thus spoke the wife of a Lima man.

Course all men, practically, wear athletic underwear because they are so cool. This particular woman just found out that Bluem's had new underwear "almost like Bob's." Patterned on the same lines precisely.

In secc silk there are hundreds of little dots for the pattern and a group that came in yesterday morning had satin stripes and dots. In flesh or white.

In batiste the patterns are mostly stripes of varying widths. Come in white.

Bodice or regular styles.

FOURTH FLOOR

Let 'Em Run and Jump

Let the little kiddies enjoy themselves in the play suits found on the Fourth Floor. They're in pink, open and gingham with stripes and checks. Also some in denim. 89c to \$1.50 each.

FOURTH FLOOR

STORM CLOUDS ARE PRETTY; RAIN WAS OF SHORT DURATION

Lima has certainly been sweltering in one of the most terrific heat waves of the year and despite the fact that a storm swept over the city Monday evening, cooling things off temporarily, Tuesday morning found the sun hotter than ever.

The humidity made the extreme heat almost unbearable, and hopes for a storm that will drive the temperature down for a few days at least are expressed.

Beautiful Clouds.

Those residents who took the trouble to watch the heavens during the storm of Monday evening were re-

warded in seeing some beautiful sights. Although the storm at first looked to be of sinister proportions it did not do great damage and treated Lima very lightly, a very hard rain for a brief period marking its passage.

From other points serious damage is reported, but Lima was not in the path of the worst of the storm, although it looked very "shaky" for a time.

Highest Point.

The Solar Refinery thermometer pointed to 98 at 1:00 o'clock, the high-water mark of the season and one that none will want to see surpassed this year, at least.

NOTICE.

Notice is hereby given to all persons emptying into the Metcalf street sewer, or any of its tributaries south of the river, that said sewer crosses my premises without permission, and at said sewer must be vacated within ten days. 7-30-19

Reds Are Ready to Meet Brooklyn Aggregation this Afternoon, Following Rest

SPORTS

REDS MEET BROOKLYN OUTFIT AFTER TAKING DAY VACATION

Moran Has Hopes of Securing Right-Handed Swatter Before Next Giant Series

CINCINNATI, Aug. 5.—The leaders of the National League rested calmly and quietly yesterday after the shock of their defeat on Sunday and will be ready to take up the burden again this afternoon, when they meet the Brooklyn outfit in the first contest of a three-game series. Recognizing the hard strain under which the team has been laboring, Manager Moran gave the players a complete off-day, all to themselves, and no one was required to report at the yard.

The boys greatly regretted the outcome of the Sunday contest for they would have been proud to set the Giants back three straight, and before the record-breaking crowd. But these things will happen once in a while and the players are far from being discouraged or disheartened.

Since returning home nine days ago the Reds have played eleven games of ball and have won nine of them, for a percentage of .818 which will win the pennant if persisted in. The club has advanced from second to first place, and did so by beating their nearest rivals two out of three games, which takes place at the Polo Grounds next week.

Still Angling For Outfielder—The present vital need of the club is for a hard-hitting right-hand outfielder of experience. Manager Moran wants a right-hand hitter and would very much like to secure a man before the next critical series with the Giants, which occurs at the Polo Grounds next week.

The Red leader is trying to secure either Mann from the Boston club or Paskert from the Cubs, but has not been able to arrange a deal as yet. Pat has been after Mann for some time but could not arrange a trade for him because the Cubs were planning to use him in the deal for Charley Herzog, which went through last week. Moran still hopes that he can be secured from the Boston club and is making every effort to add him to the Red list.

NATALIE THE GREAT WINS NEWS STAKE

Fast Time Was Made Over Heavy Track at North Randall, Yesterday

CLEVELAND, Aug. 5.—Attracted by two sweep stakes, a large crowd braved the threatening weather for the opening of the second Grand Circuit meeting of the summer at North Randall Monday. Owing to showers throughout the morning, the track was heavy, but some fast time was made.

All of the favorites won.

The North Randall purse of \$2,160 for 2:05 trotters was won by the heavily played Royal Mac. He took the first heat easily but had to stand a hard drive to beat Wilkes Brewer in the third heat. Natalie the Great which has never lost a heat, led from start to finish and easily won the News \$2,000 stakes for two year old trotters. The filly sold at \$100 in the election pool against \$30 for the field.

The 2:06 pace resulted in the hottest contested event of the day, four heats being necessary to decide the winner. Sanardo took the second heat in 2:02 1-2, the fastest mile of the day, considered remarkable owing to the condition of the track. He did the half mile in 1:01. Roy Gratton won the first and fourth heats in the race, with the third heat going to O U C in a hard drive. Tommy Todd, the veteran half mile gelding, captured the 2:10 trot after finishing a poor fourth to The Ace, a long shot in the first heat.

Another excellent card was promised to followers of Grand Circuit harness racing at North Randall today, but it was doubtful this morning whether the program could be carried out owing to shower throughout the night. Forty-two trotters and pacers are scheduled to start in the four events.

Seven are carded to start in the Press 2:15 trot which, with a purse of \$3,000, is the feature event of the day. Walter Cox's McGregor the Great ruled as the early favorite.

The other events include the 2:12 pace with 12 starters, the 2:07 trot, in which nine go, and the 2:17 pace with 14 entries.

U. S. Point Winner at Inter-Allied Game

H. L. Liversedge

This is one of Uncle Sam's athletes who helped the Americans to sweep everything before them at the recent inter-allied games held at the Pershing Stadium, near Paris. The photograph was taken just after H. L. Liversedge had put the shot. He won that event and finished second in the javelin throw. Liversedge, who at one time held the American javelin record, was an all-around athlete at the University of California. He was a good football player.

IT IS DOUBTFUL IF FATOR WILL EQUAL "TOD" SLOAN

While Laverne is Good, it Doesn't Stand to Reason, He Will Be Able to Jockey Like Famous Rider.

(By JAMES F. BURBA.)

Lovers of the sport kings are touting young Laverne Fator, promising jockey, who has just signed a three-year contract to ride for Sam Hildreth, for which the rider will receive \$15,000, as the second Tod Sloan. Mebbe so, mebbe so, but we have our doubts about it.

Not that Fator is as clever a pilot as ever hung over a running horse's neck, but because a jockey can sit his horse pretty, and get good results is no sign he is doing everything he can to win the race. Apparently that was all Sloan did, but we know better. Tod studied the track as much as he studied the horse.

Just to give you an idea of what we mean, here is a little story told by Jack Doyle:

"A horseman had been out on a late party," says Doyle. "He was returning to the stables at Morris Park about 5 o'clock in the morning when he met Tod Sloan walking in from the track."

"Out pretty early Tod, aren't you?" he asked. "Yes," answered Sloan. "But, you see, I couldn't sleep and came out for a breath of air."

"Several years later Sloan met this horseman on Broadway one night and they got talking of the old days at Morris Park. 'Do you remember that morning you met me walking in from the track at 5 o'clock?' Tod. 'Very well,' said the horseman. 'Tell the truth now, Tod, were you just getting in from a party?' 'No,' answered Sloan. 'I'll tell you about that. Morris Park is gone and I'm not riding any more, so I don't mind giving up some of my secrets. 'If you will remember there was a steep incline near the far turn at Morris Park. Then the track sloped down again toward the stretch. 'I was out that morning finding out just where the incline started and where it ended and the down grade began. After that I could always ease my mounts up as I hit the hill and save them until I got to the top. Then I could make my run on the down grade with a fresh horse under me. If you'll remember, I won many a race over that Morris Park course after you met me walking that morning.'"

Now put that in your old needle and shoot. That season at the old Morris Park, Sloan was as near unbeatable as a jockey could be. He won his contests with uncanny regularity. Race fans began to sit up and take notice. They couldn't figure, and it was purely by accident that the reason for Tod's success was found out.

Haven't you got a photo of Loftus Fator or any other riders of today during a stunt like that? Now it's our opinion this cow-pony riding lad from the west is a jockeying scamp, but we simply can't see him as a peer of the world beater Tod Sloan.

LOST ARTICLES. Can be quickly recovered by inserting a small Lost ad in The Times Democrat.

BRING ON YOUR LOCAL BATTLERS

Johnnie Jarvis and Young Harger Issue Challenges to Lima Fighters

According to a communication received today from Eddie Young, manager of Johnnie Jarvis, 128 pounds, and Young Harger, 133,

these two lads are looking for scraps and are desirous of making a match with a Lima battler if possible.

Both these lads are going good, the communication states, and each promises a run for the money if they can be matched. If any local fighter or manager desires a match with either of these Toledo lads address Eddie Young, Toledo Club Billiard Hall, Toledo.

Perkins' home run in left field bleachers yesterday put the Athletics on the heavy end of the score.

THROUGH THE SPORTSCOPE

Reds are all set for Brooklyn today. They ought to get a firm grip of that rag, now.

Royal Mac did a return stunt and walked right past Wilkes Brewer yesterday at North Randall.

Natalie The Great still has a heat to lose.

A few steps faster and Valor would have tied the mark set by the once famous Sun Briar.

Salth the Sage of Hawg Creek: "I wonder if the 'monkey meat' the city is about to buy from the army will sell among the soldiers of Lima."

Why not buy an ocean or two of gold fish for returned soldiers?

Phillies beat the Cubs yesterday, when the Chicago outfit made three mistakes.

ARMY FOOD COMING TO LIMA NEXT WEEK

FOOD WILL BE SOLD FROM MARKETHOUSE INSTEAD OF TRAIN

Large Order of Bacon Placed, Despite the Heavy Price of Meat

CANNED MEATS DULL

Lima People Do Not Take to Idea of Buying This Article

The two cars of foodstuffs which will be disposed of to citizens of Lima at government purchase prices are expected to arrive in this city within the next week, city officials this afternoon stated. It is now a settled fact the canned meats and canned vegetables will be sold from the markethouse.

It was first decided to dispose of the meats and vegetables from the cars which would be spotted near Market street, on the Baltimore and Ohio railroad tracks, but after due consideration it was determined to hold the sales under the supervision of Marketmaster John Herbolzheimer at the market house.

Save Demurrage
City teams will transport the food from the cars to the house, and in this manner demurrage will be saved, as officials declare it will take at least three days to dispose of the goods. It was also determined today to let citizens have any quantity they want, provided they can show that the food is wanted for individual consumption.

Wants Bacon
Marketmaster Herbolzheimer left this afternoon for Chicago, where he will make a thorough investigation into the foodstuffs sold by the government. It is probable, Mayor Simpson stated, the city will not purchase any large quantity of canned meats, but will obtain all the bacon it possibly can. Indications are, he said, Lima residents desire bacon in preference to the canned meats, notwithstanding the fact that bacon is a bit more expensive.

Flour Direct
Several larger Ohio cities have received communications from the Milling company, a Minneapolis flour concern, to the effect that it is in a

position to sell flour direct from its mills to the consumer at a guaranteed saving of from \$2 to \$3 per barrel. It is anticipated the same communication within a few days and the matter will be thoroughly investigated by local officials.

If the Minneapolis concern can definitely show where they are in a position to sell flour at this saving, it is probable a large amount will be ordered and disposed of to citizens, officials stated. To show that it is selling at cost, the Trent Milling company, it is understood, agrees to furnish mill invoices and the bank drafts involved in the transactions.

Awaits Papers
Prosecutor Cable, today stated, he is awaiting the arrival of the questionnaire prepared by Attorney General Price, which will be mailed out to dealers and producers all over the state, in an effort to ascertain just who is responsible for the present prices.

N. L. MICHAEL IS NOW IMPROVING

Word from N. L. Michael, of the Michael Clothing Company, who sustained a broken ankle the early part of the summer while on a business trip in the west is to the effect that he is improving, and expects to return to Lima by the 20th. Mr. Michael is now in St. Mark's Hospital, Salt Lake City.

Chief Roush Has Returned Empty Handed

Police Chief Roush returned Tuesday from a trip to Glasgow. However this Glasgow didn't happen to be in Scotland, the chief had quite a trip, as the city is located in Kentucky and Roush was in quest of the automobile of John Williams, R. F. D. 2, St. Marys, which was stolen from the Lima Driving park, July 3. Police officials in Paducah, Ky., where the thief was being held, released the man under a \$200 bond which he jumped. The car was valued at \$500. A warrant which was sent by the Lima police to Paducah it is claimed, arrived too late.

ATTORNEY LEETE TO HELP FIGHT SERVICE CHARGE

To Assist City Solicitor Light in Lima Gas Company Case

IN SUPREME COURT

Council Approves Increase of Salaries of Many City Employees

City Solicitor Light, for the second time within the past two months has been ordered to fight the service charge sought by the Lima Natural Gas company, and council last night also voted to secure the services of Attorney W. H. Leete to assist in this endeavor.

The resolution was presented by Councilman Stiles, seconded by Morey, and carried unanimously, preparing the case and arguing it before the supreme court, to whom the case has been appealed following the action of the state utilities commission who recently granted the company the right to make a ready-to-serve charge.

The text of the resolution presented by Councilman Stiles follows:

"Be it resolved by this Council now assembled that whereas this body endorsed by a unanimous vote of all its members the action of our city solicitor in opposing the case of the city of Lima, Ohio, vs. the Lima Natural Gas company from the Public Utilities Board of Ohio to the Supreme Court of Ohio relative to a readiness-to-serve charge of 35 cents per month for each consumer of natural and artificial gas.

"Be it resolved that in fairness to our city and the city of Lima, Ohio, that this council hereby authorize and provide the necessary funds and employ W. H. Leete to assist our city solicitor in the prosecution of this case.

"That a copy of this resolution is hereby ordered spread upon the minutes of this council."

Object to Plant

Smoke, cinders and odors arising from the Andrews Asphalt company's plant on South Central avenue, between Kirby and Eureka streets, are nuisances, according to a petition presented council last night, by citizens who dwell in that neighborhood, asking that the plant be removed.

After an unsuccessful attempt of Councilman Morey to have immediate action taken on the petition, the matter was referred to the safety committee.

River Improvement
Service Director Metheny was

directed to enter into a contract with the river improvement contractor, whereby Ottawa river may be widened, deepened and cleaned in Shawnee township below the Chicago and Erie railroad bridge.

Council last night, announced approval of the increase in salaries of city employees as granted at a special meeting of the finance committee, recently.

Under the new scale the chief engineer and the superintendent of the water works will each receive \$2,100 yearly. The secretary will get \$1,800; three assistant engineers \$1,680 each; the assistant superintendent and assistant secretary \$1,500 each; three firemen \$1,250 each; two inspectors and meter readers and one pumper \$1,200 each; and the chemist \$1,020.

Quite a Few Were Very Angry On That Day

May 24, the last day of the saloons, proved the most terrible in the married life of Anna C. Kirk, of 715 St. John's avenue, according to the petition for divorce from her husband Roy L. Kirk, filed in common pleas court Tuesday.

Mrs. Kirk alleges that her husband has, in the last two years treated her with extreme cruelty, beating her and coming home drunk. On May 24, he was particularly cruel to her, she avers.

The plaintiff asks that she be given the custody of the two children, Donald and John, and that the household goods be turned over to her. They were married August 4, 1909.

MARRIAGE LICENSES

Carl A. Fisher, 25, claimmaker, Delphos and Lillian B. Prock, 18, 461 east High street.

Harry Phillips Basinger, 32, Aberdeen, South Dakota, veterinarian and Myrtle Edith Kruse, 23, nurse, 640 west High street.

OPERATION IS SUCCESSFUL

The many friends of Miss Marie Lessee, of North Metcalf street, will be glad to learn, she successfully underwent a serious operation, Monday afternoon, at St. Rita's hospital. This is the second operation which she has undergone lately.

WROTE 100 NOVELS

Despite the fact that the late Amelia E. Barr left an estate of only a few hundred dollars, she is known to have earned a large amount of money with her pen. During her long and active career she wrote a total of nearly 100 novels.

HEAT HAS NO NOTABLE EFFECT

No heat prostrations this summer have been reported to the board of health, according to Miss Margaret Nash, in charge of the bureau of vital statistics in the health office. Despite the extremely warm weather, no cases have occurred, or else none of them have been reported to the board of health by physicians. There are still a few cases of measles and typhoid in the city, but none of these are considered serious.

IMPORTING RABBIT SKINS.

Rabbit skins from Australia and New Zealand were among the largest offerings in the recent international fur auction at St. Louis. Half a million pounds of Australian rabbit and 50,000 pounds of New Zealand were sold for a total of \$335,000. The largest lots went to hatters and felt manufacturers.

ELECTRICITY AND POLAR GROWTH

The rapid growth of vegetation in polar regions is attributed to the strength of the electric current in the atmosphere.

SEA-WEED ALCOHOL

According to experiments made at the Pasteur institute in Paris, an average of about six quarts of alcohol can be obtained from each 100 pounds of sea-weed.

Waynesfield, Ohio.

Aug. 5, 1919.

Dear John: Was over to Lima yesterday and as I had lots of time I dropped in to see Mr. Frankle, the Optometrist at Hughes and Son, in order to have my glasses adjusted and when I was there he showed me some of the newest things in spectacles and eyeglasses, they were very attractive looking, and combined with his skill in fitting I can't see how any one could go wrong in letting him fit their glasses.

Yours, Mary.

P. S. Mary knows, don't she John?
